

Corporate Social Responsibility Policy

Corporate Social Responsibility (CRS) is the concept whereby organisations integrate social and environmental concerns into their business operations.

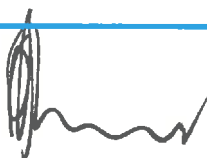

The Company is committed to adopting best practice in their area yet whilst we take our CSR responsibilities seriously we recognise we have only scratched the surface.

Our approach is supported by our environmental policy, our transparent approach to our business and ensuring that as we grow we are committed to improving our CSR performance.

We recognise the importance of these issues and currently focus on what we believe to be key areas of responsibility;

Signed:

Stuart Peacock

Chairman for and on behalf of Caterleisure
